DENIAL IS MADE BY

President Asserts It Gave No Aid to Cigarette Business.

ARGUMENT IN CHAMBERS

Lumber Concern Files Voluntary Petition in Bankruptcy.

Raleigh, N. C., June 22.—This afternoon, in the Ware-Kramer Tobacco
Company damage suit against the
American Tobacco Company, depositions were read concerning the counection of the American Snuff Company with the defendants, the president of that company denying it had
aided at all in the cigarette business.
Detendants raised exceptions to the
introduction of a deposition or vicePresident W. R. Harris, of the American Company.

La it he had directed his company's
Sments in China to watch for a shipment of "White Roll" cigarettes of the
plaintiff, and give them a "warm reception." Finally the court dismissed
the jury, and argument was held in
chambers as to certain matters of
depositions, the court to rule on them
to memory.

the jury, and argument was held in chambers as to certain matters of depositions, the court to rule on them to-morrow.

A voluntary proceeding in bank-ruptcy was filed in the Federal court here to-day by the Ellington Lumber and Building Supply Company, of Raleigh, the liabilities being given as \$22,891 and the assets as \$13.242. There are fifty-odd creditors enumerated, most of them being in Kaleigh. The company only a few months ago moved into an especially well-equipped new lumber and builder's supply plant, out near the State's Prison, where it

has sidetrack arrangements with all the railroad companies.

The State Department of Agriculture and the United States Department, cooperating, have procured the fining of W. A. Connell, in the Superior Court at Warrenton, for persistent violations of the cattle quarantine regulations, in connection with the campaign for the eradication of the cattle tick in this State. He persisted in getting in cattle and shipping out other cattle from his place, which is within quarantine territory. He paid \$201 fine and costs. The authorities say they find a very ne authorities say they find a very meral desire to co-operate on the part the farmers and cattlemen.

amendment, but Schator Nelson, of Minnesota, and Senator Heyburn, of Idaho, renewed the debate as to Can ada's powers of controlling wood pulp exports. Finally, at Senator Nelson's suggestion, the vote on the amend-

suggestion, the vote on the amendment was again held over.

Senator Cummins, in his attack upon the Root amendment, declared that he believed the manufacturers of prirtipaper in the United States effectually control prices and dictate the mills from which purchasers may buy. He expressed the belief that the prices at which paper is sold in the United States are not determined by the ordinary rules and forces of trade and cominerce.

"The manufacturers have so manipulated the business in which they are engaged," he said, "that they fix for the publishers of the United States just such price as they desire to demand for what they produce."

Washington, June 22.—An investigation of the campaign contributions of 1994 and 1995 is proposed in a resolution introduced to-day by Senator Culberson, of Texas. The proposed investigation would be made by the Committee on Privileges and Elections, with instructions to report methods of curtailing subscriptions and confining them to proper and legitimate objects.

TO SENATE ITSELF

(Continued From First Page.)

Would be to accomplish practically nothing in the present session was voiced by such men as Senators Penrose and Lodge.

The remarks of the Republican leaders were expressive of contempt for the Democratic bills, Mr. Penrose saying that the wool bill was made overlight by mechanics, and that no sensible body of men would think of devoting less than ten months to a revision of schedule K.

The question now uppermost is whether the President would accept any amendments to the reciprocity bill. The Democratic hand, the the say of further tariff revision, the amendments will have a majority of the Senate behind them.

Small conferences were held in the Democratic ranks all day. The suggestion already has been made in some quarters that the wool bill and the free list bill be passed ahead of the reciprocity bill, so that the latter can be used to induce the President to sign the others.

Democratic leaders and Insurgents confess, however, that they have determined upon no line of fullware determined upon no line of full determined upon no line of full

the others.

Democratic leaders and Insurgents confess, however, that they have determined upon no line of future action, and do not know what turn the complicated situation will take within a conference here to-day of the fight ture Will Return to Seats To-Day.

ture Will Return to Seats To-Day.

Nashville. Tenn., June 22.—Following a conference here to-day of the fight between the regular Democrats of the tewen the regular Democrats of the Tennessee Legislature on one side and the independent Democrats and Recussion of the reciprocity bill; Senator Cummins attacking the Root amendment on the ground that it would indefinitely delay the relief which American paper consumers seek from the grip of the so-called paper trust. Late in the afternoon there was an apparent

Sensational Reports of Its Failure Are Refuted by Bixby.

Bixby.

Havana, June 22.—Sensational local reports of the failure of the Maine cofferdam, which has been declared deficient in stability, apparently based on the discontinuation of pumping since the night of June 26, received refutation to-night from Brigadier-General Bixby and Colonel Black, the United States army engineers. Both declared that the structure was fallilling all expectations, and that the discontinuance of the pumping was fully in accord with the plans to test the structure thoroughly prior to lowering the water to any considerable depth. The water level is now at twelve feet. General Bixby said to-night that nothing had been observed in the behavior of the caissons inconsistent with conditions foreseen by the board of engineers. He added that to lower the water to a depth of fifteen feet had been inerely experimental. Probably the level would be maintained at the present depth of twelve feet for a week or ten days.

A very interesting relic was found to-day, it was Captain Sigsbee's walking sitek, which was found in his cabin, and was identified by the inscription on the handle.

(Continued From First Page.)
when the cheering died away the President said:
"People talk about annexing Canada to the United States, or the United States to Canada. It is entirely unnecessary; all that we ought to do is to cultivate as fully and completely as possible good neighborly relations. The closer we come together, commercially and socially, the petter it is for both of us."

The President put in a good word for the Canadian reciprocity measure. After the dinner President Taft was whisked away in his automobile to Sea Gate, where the presidential yacht Mayflower was awaiting him, and sailed for Fall River, Mass., where he is to attend the cotton centennial carnival to-morrow afternoon.

Ashland, Va. June 22.—Mr. and Mrs. Waterely hope that those excellent associations that have been organized for the promotion of the adoption of this plan will go to working "spells," as well as forecasting the future.

Fresher Than Milkman's Milk Richer-Purer-Cheaper

Swiss and Dutch experts have perfected for us the finest milk ever produced in America. It is like the milks of Switzerland and Holland.

This milk of ours comes from Holstein cows, fed America's best dairy

The milk fresh from the cow is put into a vacuum. Then at a low heat, we evaporate twothirds of the water. Nothing whatever is added-no sugar, no preservative. Nothing but water is taken out.

The milk is sterilized without scorching. It comes to you an absolutely germless milk. It is as thick as thick cream-28 per cent solids, 8 per cent butter fat.

In the past seven years we have spent \$100,000 in learning through experts how to produce such milk.

Six Cents Per Quart

If this milk is reduced to the usual milk's richness the cost will figure about six cents per quart. Yet it is evaporated, sterilized

Our process costs less than it costs the milkman to make his daily deliveries. That is where the saving comes.

Yet you get in Van Camp's rich Holstein milk, not milk from mongrel cows. You get a sterile milk in place of milk that is germ-laden.

You get the whole milk as it comes from the cow-all of the butter fat, all of the solids. It is not carted around-not left to And you can buy, if you wish, a month's supply at a time. It is like having a cow

Thick as Cream

Van Camp's Milk comes to you as thick as thick cream. So thick that you add one part water for coffee. Milk dishes made with it taste very much as

though they were made with cream. Milkman's milk separates before it gets to you. It separates after you get it. Perhaps you skim it, too. When it comes to the

cooking it is rarely more than a half-milk. When you use this whole milk-this rich, Holstein milk-you'll be amazed at the flavor it gives to a milk dish. But remember that milk, with all its richness, is cheaper than common milk.

When you once taste a milk dish made with Van Camp's you'll never want a dish made without it.

Free From Germs

Van Camp's Milk

Van Camp's Milk is utterly sterile. It is made so by pasteurization.

Raw milk, as you know, contains millions of germs. Often they are dangerous germs. Think how pleasant it is to drink a milk that has none at all.

This milk solves the whole milk problem. It supplies you a milk sealed up at the dairy -fresher than milkman's milk. It brings you the milk of the best dairying districts in a perfectly sterile state.

You can have a month's supply on hane, if you wish. Open a can when you need it. There's no shortage, no waste.

We Milk 30,000 Cows

We are milking daily 30,000 cows to supply the people who know this milk. Tens of millions of cans are used annually.

It is not like condensed milk, which is half sugar. It is not like the ordinary evaporated milk. Our Dutch and Swiss experts have created for us the finest milk in America. You ought to enjoy it.

One can will make you a convert.

The 16-oz. can-a full pint of Van Camp'scosts 10 cents. The 6oz. can costs 5 cents. Evaporated and sealed at our dairies in six states. Order from your grocer.

Evaporated - Sterilized - Unsweetened

Vice-Chairman of Monetary Commission Addresses Tarheel Bankers.

Kanuga Lake, N. C., June 22.-Seeing

in the reform of the national currency the practical remedy for national unrest, and voicing his advocacy of needed banking legislation. Edward B. Vrceland, of New York, vice-chairman of the National Monetary Commission, to-night struck a responsive cord at the North Carolina Bankers' convention, in session here.

Congressman Vreeland urged cooperation among the banks, rather than the centralization of power in any organization.

"We want control decentralized," he said, "and made as broad as the country. The management of the reserve association will be in the hands of representative men, selected from every part of the United States, and representing not only the banking interests of the country, but the business interest as well."

The speaker declared that money names are due sentirely to our defec-

ness interest as well."

The speaker declared that money panies are due entirely to our defective banking and currency system.

Significant action was taken by the bankers, when it was unanimously resolved that hereafter all officers of the association be nominated on the floor of the convention, and not by the nominating committee as heretofore.

In offering the resolution, C. N. Evans, of Wilmington, N. C., said that

Secretary Stimson to Make Inspection

Secretary Stimson to Make Inspection
Trip in July,
Washington, June 22.—The Panama
Canai, its progress toward completion and its details of fortification, will receive the closest scrutiny of Secretary of War Stimson next month, when he will see the great engineering work for the first time. He will sail from New York og July 6, on a tour of inspection. Incidentally he will stop at Havana to view the ruins of the battleship Maine, whose water shroud is now being gradually raised. The secretary also will include Porto Rico in his Itinerary to inquire into some questions of sanitation, and the present method of choosing municipal judges in the island.

Major-General Leonard Wood, chief of stuff of the army, probably will join the Secretary of War during his inspection of the canal, in order to discuss the question of fortification, a subject which is being given much attention by the War Department, as it is desired to have the protective works completed simultaneously with the canal.

The tour of inspection may be extended to the manoeuvre division at San Antonio, Tex. For that purpose, Secretary Stimson and Major-General Wood probably will return by way of Galveston.

MRS. LEA OUT OF DANGER.

Recent Transtunion of Hushand's Blood Saves Her Life.
Washington, D. C., June 22.—Mrs. Lea, wife of United States Senator Luke Lea, of Tennessee, whose life is believed to be saved by the transfusion into her veius of a quart of her husband's blood, was to-day pronounced to be out of danger. Just before the transfusion operation last Sunday the attending doctors thought Mrs. Lea was dying. Senator Lea has recovered his strength.

were killed and twenty-five wounded to-day at Japapa, capital of Vera Cruz, in a clash between revolutionary forces and Federal officers.

forces and Federal officers.

Acting on orders from the Provisional Governor, the commander of the Federals attempted to remove from the arsenal in the state palace a quantity of arms. The intention was to place them in another building, but the revolutionary forces, not understanding the motive, argued with the soffices. A crowd gathered. Police attempted to disperse the mob and started shooting. started shooting.

Enjoyable Card Party.

[Special to The Times-Dispatch.]

Louisa, Va., June 22.—One of the most delightful entertainments of the season was a card party given by Mrs. Ala Flanmagan and Miss Elizabeth Flanmagan at their home here yesterday evening, in honor of the house guests of Senator and Mrs. Wilmer Sims. Progressive hearts was played and dainty and delicious refreshments were served at the close of the game. The lady's prize, a silver paper knife, was won by Mrs. A. T. Gordon. The men's, a pack of cards, was won by Jesse Donnally. The booby prizes were won by Mrs. Wilmer Sims and Professor T. M. McClure.

Those playing were Mrs. Wilmer Sims, Mrs. A. T. Gordon, Mrs. Davis Walker, Mrs. George Black of St. Louis, Mo.: Mrs. Walter Chiles, Miss Cornwall, of New York; Miss Washburn, of Philadelphia; Miss Van Bibber, of Huntington, W. Va.; Miss Luey Sims, Miss Kiburnie Barret, Miss Josephine Henderson, Miss Elizabeth Flanmagan, Mrs. Ada Flanmagan, Mr. Cleaver, of Kingston, N. Y.; Mr. Winsfield, of Richmond: Professor T. M. McClure, Senator F. W. Slims, R. L. Gordon, Jesse Donnally, William C. Gibb, James West, Richard Wills, Carrol Henson, Allan Flannagan, Walter D. Chiles.

Arguments on Exceptions to Commissioner's Report Heard by Judge.

[Special to The Times-Dispatch.]

Alexandria, Va., June 22.—Judge Barley in the Corporation Court to-day heard arguments on exceptions to the report of Special Commissioner John M. Johnson in the case of T. J. Fannen vs. the Virginia Safe Deposit and Trust Corporation. In his report Mr. Johnson made the Becker's trust claim of \$50,000 a prefedred claim. This was objected to by S. G. Brent, attorney for W. H. Baugshton, and his objection was sustained by the court. The motion to make the claim of the American National Bank, of Washington, a preferred claim, was overruled.

The exceptions of the Commonwealth to the report of Commissioner Johnson because he refused to make the claim of the Stato of Virginia a lien on the property of the trust company will be heard next Saturday. S. G. Brent asked that the directors he ordered to declare a dividend of 20 per cent.

The court continued the hearing on this exception until September 15.

Upon motion of Mr. Brent the commissioner's report had the following sentence expunsed from it by the court: "The depositors will receive 50 per cent, and the expenses of the litigation will be \$20,000." The court cuted that this sentence should not been in the report.

Mt. Brent stated to the court that the ciaims against the trust company to date were \$334,500, and the amount on hand was only \$12.00.

The court appointed the following commissioners to sell the property of the trust corporation: S. G. Brent and R. C. L. Moncure, for the creditors: George Hiden, for the Rixey interest; G. L. Boothe, for the directors, and one receiver, not yet named.

Brown—White.
[Special to The Times-Dispatch.]
Lynchburg, Va., June 22.—Richard
G. Brown and Miss Emily Elva White
were married Wednesday evening a
the home of Charles Stewart, the cere
mony being performed by Rev. C. M
Compher, pastor of the Methodist Protestant Church. The bride formerly
lived at Concord, being the daughter
of J. T. White, immediately after the
ceremony Mr. and Mrs. Brown went to
Gladys to reside.
